- **WARNING!** The cabinet frame and the cabinet MUST be made from a non-combustible material when the appliance is not installed with the Zero Clearance Liner corresponding to your unit.
- Always maintain a minimum clearance to combustibles of 432 mm to the rear, 229 mm to the sides, and 1200 mm from above when not installed with the Zero Clearance Liner corresponding to your unit.
- Additional clearance of 610 mm is recommended near vinyl siding or panes of glass.
- Always maintain a minimum distance of 431 mm between other additional appliances.
- **CAUTION!** If enclosure houses an LPG cylinder, this construction must comply with the built-in cylinder enclosure instructions. Refer to the user manual
