

KINETIC
MOVE WITH THE TIMES

**2023
FABRIC
COLLECTIONS**

FABRIC QUALITY ICONS

Constructed with durable materials and finished with specialized techniques,
Our fabrics are thoughtfully designed to take on life's challenges.

**Leather
Look**

LEATHER LOOK

Made to resemble genuine nubuck or suede leather which offers more durable and very easy to care for.

**Snagging
Resistance**

PET FRIENDLY

These fabrics are designed with a tight weave that resists pet snags and traps pet hair, making them ideal for homes with pets.

**Proven
Durability**

DURABILITY

Classified as a heavy domestic fabric, making it the perfect fabric for family that requires both durability and comfort.

SafeGuard

PERFORMANCE

Family-friendly fabrics that has a nanoparticle finish, which effectively blocks the ingress of dirt and withstand spills with Safeguard properties.

**Water
Repellent**

WATER REPELLENT

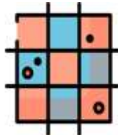

Forming a water repellent layer which prevents rapid fluid seepage.

**Soft
Touch**

SOFT TOUCH

Warmth and comfort are provided by the fabric's soft touch finish, which gives it a softer, more luxurious feel.

**Multi-colour
Effect**

MELANGE EFFECT

Different fibers blend together to create mélange yarns, resulting in a range of colour tones with a unique aesthetic and comfortable attribute

**Unique
Patterns**

UNIQUE TEXTURED

Richly textured fabrics that add warmth and dimension to your space, giving it a relaxed, luxury look and feel.

**Linen
Look**

LINEN LOOK

Natural variations in fiber refinement give this fabric a classic textured appearance.

**Eco
Friendly**

ECO-FRIENDLY

Technology that uses yarn from recycled material and the whole manufacturing process is less harmful to the environment and reduces our carbon footprint.

**RECYCLED
LEATHER**

RECYCLED LEATHER

That is made from the sustainable materials, through a process of recycling of natural leather fiber from pre-consumer leather wastage.

**Breathable
Comfort**

BREATHABLE COMFORT

Breathable fabrics allow air to flow easily through them, keeping you cool in the summer and warm in the winter.

CARING FOR FABRIC

- Dust your fabric sofa, including under the seat cushions, regularly using a soft, dry and white cloth or a vacuum cleaner with a small brush attachment.
- Do not use hard brushes; they may damage the surface of the fabric and cause pilling.
- Avoid placing your sofa in direct sunlight or under intense indoor light.
- Do not put coloured textiles on your sofa as dye transfer may occur.
- To remove stains, apply recommended cleaners, following the instructions. Dab lightly with a soft sponge.

CLEANING SYMBOLS FOR FABRIC

	Do not wash in water		Do not iron
	Wash using water (Max 20°C)		Iron at a temperature not exceeding 100°C. Avoid using steam.
	Wash using water (Max 30°C)		Iron at a temperature not exceeding 150°C
